DEALERSHIP FEATURE SPOTLIGHT ON: RACEWAY MOTORS

NACOGDOCHES, Texas --- Suretys is now available for pre-approval in the great state of Texas. First-time buyers with thin credit files and some having no credit at all are finding Suretys easy and quick. "Most young people have really high monthly payments and with Suretys I got a rate I know I could afford. It feels like a weight was lifted off my shoulders," customer Michael H. shared. Another customer was approved and left the same day in a brand new car. Ross Williams, General Manager at Raceway Motors in Lufkin, says they are extremely happy with the first-time buyer program. The best part? The sales increase has been exponential. "Suretys has helped increase our sales in just one month by 10%," he says. We're just getting started.

Founder's Note:

I'm taking the time to reflect on why I was drawn to creating Suretys.

I can still remember how I felt when I was told I needed a cosigner to get a car. I knew there had to be a better way for first-time buyers to get a car.

I was certain there were plenty of people just like me who worked hard, had good paying jobs, but had limited credit history preventing them from getting approved for a loan. I wanted to launch a company that would save people money and help them built credit. We have the opportunity to do that every day and it's so rewarding.

At Suretys, we tell customers, "You're more than your credit score." With every new happy customer, we see how we're empowering people and changing lives by giving people a chance. We're excited about the future of Suretys.

The road is wide open!

CUSTOMER STORY FEATURE: KATIE'S STORY:

Every dealership Katie went to turned her down. She had a great job, steady income, and wanted a new car to make her morning commute easier. Her parents couldn't take on another loan and Katie felt hopeless not knowing if she would ever get a car. Then she heard about Suretys. It gave her some hope knowing that a company wouldn't write her off because of her lack of credit history. With Suretys, she was approved and drove off the lot in a brand new car at an interest rate she knew would never compromise her finances. She got a car on her own terms, without mom or dad. Independence never looked better!
